

Dear D.R Block,

I have been brushing
my teeth each day.

My teeth are vary
cleen. I have a
loose tooth. I have one
comeing in.

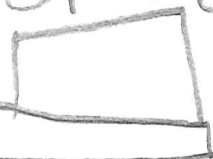

How meny
people work where
you work?

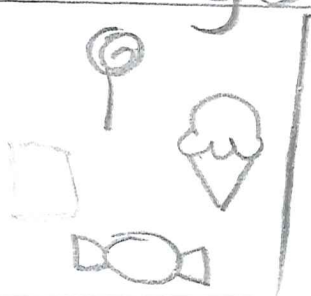

+ brushing = cleen teeth

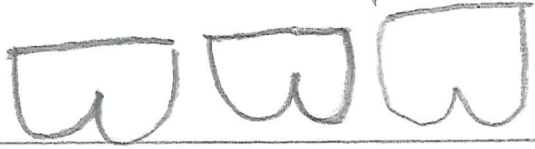

brushing is important.

I know That teeth
help us smile but what
if we did not have
teeth? I also know
bad teeth would
make us sick
and we have to
go to the doctor.

teeth show should
big

I do not want to
go to the

Doctor though. You
get shots and evrything
that is why you have to
brush.

You should go to

the dentist twice

a year. If you

have to have a

filling you go 3 times

a year.

I rilly Like going
to the dentist.
